BMW MOA #7

The Prez Says

By Todd Herbst

Hello all,

Before I go any further, Thanks to all the club members who helped with the Cleanliness Crew and Trash pick-up at the National Rally. Our club made up more than half of the volunteer positions. Thanks also goes out to Dick Olsen and Sam Garst for getting our club tent and provisions to the rally site. Again, thanks too all.

August 12th is the Club Picnic at Brigham Co. park outside of Blue Mounds, WI. I'll be doing the cooking of the main dish which should consist of chicken and pork of some sort, maybe even ribs. Everyone is invited to bring a dish to pass. Also, bring the beverage of your choice. This is a members only event, of course family are welcome. If you plan on coming to the Picnic please contact me via email or phone to let me know so I know how much food to get. Thanks. 608-831-4439; toddbetty@charter.net

Boy, spending 6 days at a national can be very taxing. Spending time with old and new friends that are trying to throw malt beverages down my gullet until, who knows when? Then having to be up to get the 6am Cleanliness crew rolling. Whew, brutal. Maybe I'll have to limit the number of friends I meet at rallies to a set number. I could then don "beer blinders" or something to that matter.

I got to ride one of the bikes from the new BMW line up. I was a bit late in getting to the sign up line so some of the models were already picked over. I was thinking one of the F800 models of the R1200GS but both were taken so I opted for something completely different, the new G650Xmoto, which is BMW's new Supermotard bike which basically is a dirt bike with street tires and lights. When I first jumped up on this very tall, bike I was met by a very narrow, hard seat much in the dirt bike style. The instrument cluster was very minimalist with speed, 2 trip sets and no tach. It has a rev limiter instead of a tach. When we rolled out I realized there wasn't any need for a tach, the motor just pulled from any rpm, and when I rev'ed it up, she really started to snort. This was a lead ride so I couldn't really test the cornering ability to its fullest. It handled quite nimbly, but at 325 lbs. it should. I spent a lot of time standing on the pegs because the seat was so hard. I had a great time on the bike but after only 18 miles my bum thought different.

There was sad news after the National Rally. Sunday Morning at 8 am following the rally Daniel Christ from the Iowa club was hit by a drunk driver and killed. Also, around 9:30 am on Sunday a couple from Florida were heading west bound on Hwy 60 near Neosho when their sidecar rig swerved into on coming traffic, both were killed instantly.

Our hearts go out to their Family and Friends.

Ride safe out there

Upcoming Events
