# The Prez Says

By Todd Herbst

I hope most of you are enjoying your late season riding. I've recently started a new job and haven't been able to get out and enjoy the late season riding. not only that, my commute to work has gone from 22 miles to about 5. I guess it'll be good to the gas tank.

We had a club member get run down by a deer on Sept. 23rd. Derek Englen was running at speed just south of Belleville on Hwy 92 when a deer ran out from the corn and plowed right into his side. Derek went down hard with full gear on. He suffered 4 broken ribs, a broken collar bone, a broken helmet and a very broken Aprilia Falco. Derek told me the workers at the hospital keep coming up to him and thanking him for wearing all of the protective riding gear. Derek we're all thankful you didn't get more severely hurt and speaking for the club. Thanks for wearing all your gear! If you see Derek in the next month or two please don't make him laugh.

The October meeting is the start point for at least one lead ride out to the Slimy Crud Run. If you've never been to the Crud Run you should really experience it at least once. You'll probably see at least one kind motorcycle you've never seen before and maybe wont again. Some pretty cool stuff.

Please RSVP for the Chili cookoff on Oct. 13th. I looks like we'll have quite a crowd this year.
